INDEX

Tomus 46

V. Siegel, L. Boros und *H.-H. Kirchner:* Über das TSEE-Adsorptionsmaximum Lithiumdotierter BeO-Keramiken 3

B. G. Verma and *J. P. Vishwakarma:* On a Plane Magnetogasdynamic Shock Wave of Variable Strength 13

M. F. Kotkata, M. K. El-Mously and *F. M. Ayad:* Light Effect on Amorphous Crystal Transition in $SSe_{22.5}$ 19

K. N. Mehrotra and *J. P. Dixit:* Debye—Waller Factors of Platinum und Lead 27

M. L. Mittal and *D. Govinda Thirtha:* Non-Linear Hydromagnetic Waves in Two-Electron Temperature Plasma 31

H. Deb Ray: Similarity Solutions for Plane Relativistic Flow in a Homogeneous Medium 39

E. Lőrincz, P. Richter and *I. Péczeli:* Excitation Processes in a Hollow-Cathode He—Zn Discharge 45

RECENSIONES 53

R. Kamel, A. R. Ali, Z. Farid and *F. Abd El-Salam:* The Role of Lithium Atoms in the Structural Changes in Al-Li Alloy 55

B. P. Singh and *M. P. Hemkar:* Phonon Dispersion Relations in *bcc* Transition Metals ... 61

S. Kugler and *G. Náray-Szabó:* Quantum Chemical Study of Internal Rotations in Liquid Crystal Molecules 69

P. Singh and *R. L. Verma:* Free Convection Fluctuating Flow on a Horizontal Magnetized Plate 77

Y. Thomas et *B. Taravel:* Interprétation simple du paramètre anharmonique ($\gamma\beta$T) d'un solide 97

J. Swiątek and *D. C. Larson:* Electrical Conductivity in Thin Polycrystalline *p*-Quaterphenyl Layers 101

C. Bojarski and *E. Grabowska:* On Concentration Dependence of Luminescence Decay Time of Molecules in Isotropic Media 113

RECENSIONES 125

A. R. Bestman: Free Convention Effects on the Flow Past a Vertical Porous Plate Set Impulsively into Motion with Negligible Dissipation 129

V. Vidyanidhi and *P. C. L. Narayana:* The Hall Effects on Hydromagnetic Flow over a Permeable Bed 137

V. M. Rao, M. L. P. Rao and *P. T. Rao:* Potential Energy Curves and Dissociation Energy of $X^2\Sigma$ State of ScO Molecule 153

Rishi Ram and *H. N. Singh:* The Growth and Decay of Weak Discontinuities in Relativistic Fluids with Vibrational Relaxation 157

M. Jánossy and *P. Tuovinen:* On the Excitation Mechanism of Hollow Cathode CW Noble Gas Mixture Ion Lasers 167

M. C. Al-Edani and *K. S. Dubey:* Role of Point Defect Scattering in the Lattice Thermal Conductivity of an Insulator: Application to GaAs 177

Janina Heldt and *Józef Heldt:* Determination of the Polarizability and the Dipole Moment of Anthracene Derivatives 185
C. Malinowska-Adamska and *L. Wojtczak:* Pseudoharmonic Effects of Phonons in Heat Conductivity 193
J. Bakos, Zs. Sörlei, Cs. Kuti and *S. Szikora:* Investigation of Piezoelectrically Induced Acoustic Transients in KDP Crystal 203
RECENSIONES 215

T. Mátrai: Les nombres quantiques comme paramètres cachés dans l'interprétation causale de la mécanique ondulatoire 217
K. S. Shirkot and *Surjit Singh:* Two-Phase Flow Heat Transfer in a Circular Pipe when the Inlet Temperature Varies Periodically with Time 237
R. C. Sharma and *K. P. Thakur:* Rayleigh-Taylor Instability of a Composite Mixture through Porous Medium 247
A. H. Eid, S. Mahmoud and *M. S. Elmanharawy:* Semi-Conducting Properties of Oriented Thin Tellurium Films 253
M. J. Marcinkowski: The Differential Geometry of Surfaces 263
L. Baroni, P. L. Fortini, C. Gualdi and *G. Callegari:* Physical Aspects of Matter Accretion on Stars 277
V. D. Sharma and *Radhe Shyam:* On the Propagation of Sonic Waves in a Dissociating Gas 299
B. G. Verma and *J. B. Singh:* Self-Similar Magnetogasdynamic Problems with Radiative Heat Transfer 309
G. A. Georgantopoulos: Effects of Mass Transfer on Steady Hydromagnetic Free Convective Flow of an Incompressible Viscous Fluid past an Infinite Vertical Porous Wall 319
E. Kapuy, C. Kozmutza, Zs. Ozoróczy and *J. Pipek:* Dependence on the Geometry and on the Basis Set of Localized Orbital Energy and Moment Contributions I 333
RECENSIONES 341
